AI-Based ECG Arrhythmia Detection Report

Patient Information

Patient Name	
Age	25
Gender	Male
Report Date	01-07-2026 07:32:46

Uploaded ECG Image

AI Prediction Result

Status	ABNORMAL
Detected Disease	Atrial Premature Beat

Confidence	99.44%
Risk Level	Medium

Disease Description

Premature heartbeat originating from the atria.

Possible Symptoms

- Fast heartbeat
- Irregular heartbeat
- Mild dizziness

Clinical Recommendation

Reduce stress and consult a doctor if frequent.
